Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Friday 16 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Sunny and very warm for most areas.

Today:
The far southeast of England may start cloudy, while across parts of western Scotland cloud burns back towards coasts. Many other areas sunny and very warm, just some patchy cloud around by afternoon.

Tonight:
After a sunny, warm evening, temperatures falling after dark, as it stays fine for many with long clear spells and light winds.

Saturday:
Sunny and very warm for many, hot in parts of England and Wales. A few coasts cooler and misty, while parts of the northwest cloudier; some drizzle in northwest Scotland.

Outlook for Sunday to Tuesday:
Largely settled and warm or very warm with plenty of sunshine. Cloudier and cooler across parts of the north on Sunday and into Monday with some rain in places.
